

Mindy Salzberg-Siegel, D.D.S., P.C.

There is a warm and welcoming feeling here, and a sense of relief that is experienced by those with dental challenges — those who may have given up hope their smiles could ever look beautiful or inviting. An accomplished and respected dentist, Dr. Mindy Salzberg-Siegel takes a comprehensive approach.

During the initial consultation, Dr. Salzberg-Siegel takes an unlimited amount of time to get a clear understanding of her patients' concerns. She offers everything from routine dental care for all ages to the most advanced treatments that address major dental and cosmetic challenges. Smile makeovers, restorative dentistry, tooth replacement, and advanced therapies for gum disease are just a few of the areas where Dr. Salzberg-Siegel and her staff excel. She has made people feel young again by securing dentures firmly in place with the help of dental implants. These teeth never become loose while speaking, eating, or laughing. An implant can even be placed in the bone and topped off with a porcelain tooth, creating a natural, perfect smile where teeth were once missing.

"There are also creative new ways to straighten a crooked smile without others ever knowing! Invisible aligners are so comfortable, my

patients hardly know they're wearing them," says the doctor.

Using the latest technology and techniques, such as intra-oral cameras and digital X-rays, Dr. Salzberg-Siegel provides precision dentistry in a pleasing, spa-like atmosphere where you feel relaxed and comforted. She offers a variety of amenities to help ease the stress of patients, such as iPods, cable TV, DVD movies, blankets, warm towels, and paraffin treatments to soften hands. These therapies can help ease your mind as the doctor renews and refreshes your smile.

"Dr. Mindy is so meticulous that she wouldn't settle for anything less than perfection," says Kathy V., a patient who has experienced the caring, competent hand of the doctor.

At the core of this patient-doctor relationship is trust. *Trust* that Dr. Salzberg-Siegel is continuously attending advanced courses conducted by some of the brightest minds in dentistry in order to produce unparalleled results. *Trust* that her latest technology is pinpointing problems with untold accuracy. *Trust* that she possesses the skill and artistry to craft amazing, lasting results. And *trust* that her number one priority is achieving your goals. She will always go that extra mile to make sure you are comfortable and thrilled with the final result.

Dr. Salzberg-Siegel has been elected a Top Dentist numerous times by her peers, as well as being voted "Best of the Best" dentist by Macomb Daily readers. She is a graduate of the University of Michigan and certified in Invisalign clear braces for adults and teens. Some of her numerous affiliations include the American Dental Association, the Michigan Dental Association, and the American Academy of Cosmetic Dentistry.

Whether patients are experiencing the most advanced dental procedures or their periodic cleaning and checkup, they all radiate the same feeling — a feeling that they are truly part of a family here, and that the gift of such skilled, artful dentistry has truly impacted their lives in a profound way.

"The energy I put into training and innovation pays off in the healthiest, most attractive smiles — the smiles my patients have been dreaming of for years."
